Honorable Chair, distinguished delegates,

It is a privilege to be here today to discuss some very important topics that concern not just us but everyone. The world is changing, and with it, there are many new and continuing challenges we face as a global community. There are a lot of problems that need our attention, and it is important that we address them together, one by one.

We recognizes that the issue of climate change and environmental conservation is one of these challenges. The problem has many aspects, including important economic and social factors. It impacts many people in different ways, and it will take a great deal of work to solve them.

We are glad that we can discuss these issues today and see how we can share resources and knowledge. Perhaps if we can form committees and sub-committees to work on detailed studies, we might find ways to move forward.

So, in conclusion, we hope this conference will be productive, and we look forward to hearing everyone's thoughts, because only if we work together will we every solve these issues.

What they did wrong:

- Lack of engagement
- Delegation name not mentioned
- No real solution outlined
- Repetitive and wordy
