

Accommodations & Modifications

Definitions

Accommodations are changes made in the teaching or testing procedures to provide a student with access to information and create an equal opportunity to demonstrate knowledge and skills. "A change in **HOW** I teach."

Modifications are changes in what the student is expected to learn and/or demonstrate. While a student may be working on modified course content, the subject area remains the same as the rest of the class. "A change in **WHAT** I teach."

Remember...

Always consider one or more accommodations before considering a content modification!

- Any student may receive accommodations
- Modifications can only be made for students whose IEP states the required modified content
- Decisions regarding accommodations and modifications are made on an individual basis for each student

Four Types of Accommodations

Adapted Tests

- Oral responses for tests
- Provide test review/study sheets
- Increase spacing between test sections
- Provide a word bank for fill-in-the-blank tests

Adapted Assignments

- Oral responses for assignments
- Use a checklist to assist with organization skills and supplies needed for assignments
- Use concrete examples that relate to real life experiences and student background knowledge on assignments

Assistive Technology

- Provide audio books, large print text, or Braille instructional materials
- Key information from class written materials is provided in an embossed format
- Use of slant top desk, magnifier, audio recorder, braillewriter, etc.
- Use sign language interpreter and/or assistive listening device

Instructional Support

- Use preferential seating so student can see the speaker
- Use visual information to support the content that is being presented orally
- Use study carrels
- Check for student understanding when giving directions and during whole group instruction
