Suppose you wake up to find there's no electricity, no information grid, and there's no end in sight. Will you survive if you're worried about how you and your family will survive in a natural disaster, terrorist attack, or economic collapse? You **MUST** not wait one more day to read **The One Year Prepper Plan: A Monthly Survival Guide for Long Term Planning**. Every day you turn on the news to hear about hurricanes, wildfires, terrorist attacks, disease, and wars. There's nothing worse than the panic that comes from facing a disaster with no supplies, no plan, and no survival skills. The idea of preparing for a short emergency or a long-term crisis is intimidating because it's overwhelming to consider the huge number of supplies you need, it's expensive to gather the necessary equipment, you don't know where you'll put a large stock of food and equipment in your small home, no one else you know is doing it, you don't even know where to start. Would you like to have a simple plan to help you prepare for a disaster before it happens and finally be able to sleep soundly at night knowing that your family will have what it needs and be safe? I hope so because if you wait to start preparing after disaster strikes, it will be too late.

How Is the One Year Prepper Plan Different? Many survival guides expect you to put everything together, but they don't spell out exactly what you need to do and how to do it in small steps. With the **One Year Prepper Plan**, you'll get a step-by-step plan for survival preparation. If you follow everything in the guide to the letter, you'll have most of what you need for a short crisis or a long-term survival situation. You'll get specific instructions about what to purchase or collect, how much of it to store, and how to store it. With the **One Year Prepper Plan**, you can tailor

your timeline to suit your needs With the One Year Prepper Plan you re going to learn to change your mindset from one of panic and procrastination to one of strategy and preparation Be Ready for Any Situation that Comes Your WayTTThe latest concerns about global disaster come not from bombs that physically destroy property but from Electromagnetic Pulse weapons or EMPs that can knock out the electrical and information grid permanently But that s not the only thing you need to prepare for In the One Year Prepper Plan you ll Learn how to determine what s the most likely disaster to occur in your area Discover how you can create a shelter in place during a chemical accident or attack Get educated about how you can handle a period of long term economic crisis or unemployment Get the knowledge you need to create disaster plans and drills for your family Find out what disasters might be lurking in your home and what you need to do reverse any problems Calculate what your family needs to survive for a period of 3 days to a year without electricity gas or running water Get a step by step plan to prepare rather than trying to do everything at once Learn the benefits of learning to garden and preserve your own food Discover how to protect you and your family members from a disease epidemic Get information on how to secure your home and keep it protected when the grid goes down Find out which skills you need to develop to improve your chances of survival You Have a Choice to Make Today Do you continue turning a blind eye to the possibility of chaos and disaster hoping that nothing happens or that if it does the government will save you Or do you finally start taking steps to prepare so that you re not dependent on anyone else to meet your needs or those of your family I think it s an easy choice
