# VOYAGER FOCUS 2

### VOYAGER FOCUS UC AND VOYAGER FOCUS 2 COMPARISON

The launch of Voyager Focus UC in late 2015 set the standard for enterprise headsets in terms of comfort, with its headband with sling, and audio quality, with its active noise canceling (ANC). It continues today to be a firm favorite with users and IT alike. Since its initial launch the way we work has changed. People are spending longer on collaboration calls and with the ability to work anywhere, are in ever increasing noisy environments. Research has shown that 94% of workers experience ambient noise during calls – this is up from 71% in 2017<sup>1</sup>. Users are now demanding more from their headset. The new Voyager Focus 2 headset creates a “focus zone” around the user thanks to the latest digital Hybrid ANC with three level settings that allow the user to select the right level of noise reduction based on their current environment. The pro-grade microphones with Poly’s Acoustic Fence technology provides 200% better transmit noise reduction compared to the Voyager Focus UC.

With more time being spent on collaboration calls the Voyager Focus 2 has extended talk time (up to 19 hours), plus the ability to be used as a corded headset. So, users never have to worry about running out of battery life.

The Voyager Focus 2 is also available in an office version and can connect to a desk phone, PC and mobile phone. Now one headset can connect to all user devices.
