IF rating (average of all categories)															
Net Promoter Score (range: 100 to 500)															

All ratings are based on a scale of one to 10.

Numbers in **green** indicate a rating has increased by at least 0.5 of a point from last year. Numbers in **red** indicate a rating has decreased by at least 0.5 of a point from last year.

The "performance average" below of the ratings by advisers in a given category and averages those together. You can check for one if a category is above or below the average.

The "importance average" below of the importance ratings by advisers in a given category and averages them together. It is intended to measure how important advisers think a support card

category is to their business. It is separate from the performance ratings.

The "IF rating" is an average of all of a company's category ratings by advisers, excluding Net Promoter Score. It measures how advisers feel about their own firm overall and isn't used as a ranking tool.

The Net Promoter Score ranges from 100 to 500. A score of one or more is considered good, of 10 or more is considered excellent and of 20 or more is considered exceptional. Net Promoter® and NPS® are registered trademarks of Bain & Company Inc., Schwab's Technology Inc. and First Research. Net Promoter® Score is a service mark of

Bain & Company Inc., Schwab's Technology Inc. and First Research.

NA denotes a category does not apply to a company. **NC** means the category is not applicable as not enough advisers rated it to be a reasonable sample.

1. The adviser pay and product categories do not focus on adviser earnings, growth or sales activity, or on their revenues. For pay, the focus is on compensation (salary) for products, the focus is on quality and variety of the shelf.

2. The category or category has changed materially over time, year.

Notes that some category names have been edited for clarity, while other categories have been removed compared with past years based on industry change unlike their relevance.

The Report Card scores aren't an overall progress or control, and it isn't a ranking exercise. Historical and ratings are not based on peer activity, revenue or profit.
