

4.0 MSCE AGRICULTURE EXAMINATION SYLLABUS

4.1 INTRODUCTION

Agriculture in secondary schools equips students with prerequisite knowledge and skills to apply scientific, analytical, research, technological, entrepreneurial, critical thinking, vocational and managerial skills in a creative and innovative way. This helps the students to identify problems and develop their appropriate solutions for personal and national development. It also enables secondary school graduates to apply the knowledge, skills and attitudes for environmental conservation, sustainable crop and animal production, farm business management, value addition and efficient marketing of products to maximize profits.

Therefore, the agriculture MSCE examination syllabus takes into account the national needs and the future employment and careers of the candidates as stipulated in the national curriculum. It also enables candidates to appreciate the many factors in the environment by helping them to develop an active interest in making the best use of the agricultural potential of this environment.

4.2 AIMS OF THE SYLLABUS

The syllabus aims at enabling candidates to:

- demonstrate an understanding of the environmental and climatic factors which influence agricultural production, how to modify them to reduce risks in order to maximize yield and conserve them for sustainability.
- use research skills and improved agricultural technologies to increase farm productivity.
- apply the concepts and principles of agricultural economics and farm business management to increase profitability of agricultural enterprises.
- demonstrate an understanding of scientific knowledge and skills of growing crops and rearing farm animals profitably using recommended husbandry practices.
- Make candidates aware of the opportunities in agriculture and facilities available for advice to help them to succeed in any future occupation.

4.3 ASSESSMENT OBJECTIVES

4.3.1 Core element: Agriculture and environment

4.3.1.1 Topic: Physical properties of soil

In this topic candidates should be able to:

- list the physical properties of soil
- state types of soil structure
- describe the following:
 - types of soil structure
 - physical properties of soil
 - methods of maintaining and improving soil structure
 - experiments on how to determine physical properties of soil
