

KS2 Circus Lesson Plan Ideas

English

Descriptive Writing - Show the children a picture of a circus scene or the title and get them to describe what they can see, but then to think about what they might hear and what they might smell too. If you can get a sound machine the circus and get them to imagine they are actually at the circus, they could also pretend they are going through the tunnel at a circus and describe what they can see and hear.

Persuasive - Write a persuasive poster to get people to visit the circus. This could be for any circus or specific details of a circus they have looked at in geography. The task could get them to think about animals that are made to work at the circus and to write a persuasive letter to the government to get better working animals at the circus rings.

Other writing persuasives could use the word **persuaded** to look at features of persuasive texts. They may also want to have this **poster** on the wall to read and make what is written in their writing.

Message report - An animal has escaped from the circus and a message has been sent to the circus from. Get the children to write a message report on this, getting the opinions of the circus, the reaction from the circus and what the authorities and going to do about it. The **Storyboard** writing the children understand what makes a good message report and the **Storyboard** will ensure the children get all of their ideas down in an organized fashion.

Recapitulation - Get the children to come up with a list of all the circus and get them to write instructions on how to perform the act. They can use the **circus maze** to write and test instructions.

Science

Forces - Look at different circus performers and discuss what movements they do. Find a video to show the clips of circus performers and show them examples of different forces. After showing them a few get them to try and point out some to you. Get the children to use different circus acts into pushes, pulls, twists and squashes and explain how to speed up or slow down the process.

Look at a spring water and investigate whether or not the pole they hold needs the same weight at each end or if the pole is balanced. Look at balanced forces. They can easily be done with wooden sticks balanced on a wall and putting unequal and equal weights on the ends of the sticks. Or it could be done with putting weights on a seesaw and getting it to balance.

Jugglers use balls in the circus to combat the **combination** on different surfaces and the effect it has on how far the ball rolls. Then get them to write it up with the help of the **worksheet**.

Look at gravity and the effect it has on some of the circus acts, for example the jugglers and the trapeze artists. Do an experiment with pendulums pretend they are the trapeze artists and look at the effect **gravity** has on the pendulum and how the mass of the **pendulum** affects the motion of itself.

Drama

Mime - Do some work with the class on doing mime. Look at a video of mime and get the children in groups to come up with their own routine.

PSHE

Have you ever been performing in the circus. Discuss whether or not it is fun for animals to be part of a circus. Do any objects from long ago still exist?

Storyboard - Is a circus dangerous to work at or circus just all to look at? Discuss the experiences of working at a circus. Do some role playing, pretend to be training the animals what would the work going to be and what the animals do and any other objects for the equipment and discuss the dangers of any work within or look the following.

Art

Look at old-fashioned circus posters and recreate them. Paint each other's faces to look like clowns.

Geography

Look at an aerial shot of a circus and think what you can see. Is it just the big top or are there other things in the shot? Get the children to create a circus in a box with the information they have collected from the world map. Get them to plan their circus on a large piece of paper or board.

Choose around the world - Give the class an opportunity to research circus from around the world, especially Europe or India. Get them to do a project on a country and focus on the circus. They could make a poster to advertise the circus from the country starting.

Travel - Look at how circus travel from place to place. Give the children different modes of transport and a list of places they have to visit. Get them to work out how long it would take to get from place to place with each mode of transport. Can they get out on a mode of transport? Or do they have to use multiple modes?
