Inquiry and the Scientific Method

- Vocabulary
 - observation
 - hypothesis
 - inference
 - independent variable
 - dependent variable
 - control group
 - precision
 - conclusion
- A student performed an experiment with a metal sphere. The student shot the sphere from a slingshot and measured its maximum height. Six different trials were performed with the sphere being shot at a different angle from the horizontal for each trial.
 - What is the relationship being studied? **angle vs. height**
 - What are the independent and dependent variables in this experiment? **independent variable – angle; dependent variable – height**
 - What variables must be held constant throughout this experiment? **metal sphere, pull, slingshot**
- A science class puts wide wheels onto a small cart and lets it roll down an inclined ramp and then across the floor. They measure the distance the cart travels. The investigation is repeated using the same cart but this time fitted with narrow wheels. The angle of the incline of the ramp remains constant. The mass of the cart is kept constant.
 - What is the relationship being studied? **width of wheels vs. distance**
 - What are the independent and dependent variables in this experiment? **independent variable – width of wheels; dependent variable – distance**
 - What variables must be held constant throughout the experiment? **angle of incline, surface, mass of cart**
- Explain the difference between an observation and an inference.
An observation is something detected through the senses while an inference is an assumption that is based on an observation.
- Explain how you can use the scientific method to solve scientific problems. What are the steps in the scientific method and what are their purposes?
- Use the graph below to draw a conclusion about the relationship between the number of yeast cells and the temperature of incubation. Identify the dependent and the independent variable.
independent variable – temperature; dependent variable – number of yeast cells
As the temperature increases by 1°C, the number of yeast cells increases by 1.
