

OA Framework Tutorial 01

After having received some requests from Oracle EBS newbies, I have decided to do some video tutorials to explain how screens can be built in OA Framework. For this purpose, I will build a simple case study[Person Maintenance Screen].

To begin with, I will create a simple page in OA Framework, and in following sessions, I will add additional Functionality[creation/changes] to the same page.

Welcome to the first Audio-Video tutorial in this series.

Objective :- To create a working page in OA Framework, without writing a single line of code in java.

Step 1 Create a table and insert sample data[3 records] for this demo.

Run script [xxoafdemo01.sql](#) from this link and create an OA Workspace and an OA Project.

[Click here for Audio Video Link for Step 1.](#)

The above Step 1 will do the below :-

1. Creates a table named `xx_person_details` to capture Person Details.
2. Create a API to help insert records in this table
3. Inserts three records into table `xx_person_details`
4. In jDeveloper, create an OA Workspace and default Project for this OA Framework tutorial

```
create table xx_person_details
(
  PERSON_ID          NUMBER NOT NULL
  ,FIRST_NAME        VARCHAR2(50)
  ,LAST_NAME         VARCHAR2(50)
  ,EMAIL             VARCHAR2(100)
  ,student_flag      VARCHAR2(1)
  ,name_of_university VARCHAR2(100)
  ,last_update_date  DATE
  ,last_update_login INTEGER
  ,last_updated_by   INTEGER
  ,creation_date     DATE
  ,created_by        INTEGER
);
```

```
CREATE OR REPLACE PROCEDURE xx_insert_person_prc(p_person_rec IN OUT xx_person_details
%ROWTYPE) IS
BEGIN
  SELECT per_people_s.NEXTVAL
  INTO p_person_rec.person_id
  FROM dual;
  p_person_rec.last_update_date := SYSDATE;
  p_person_rec.creation_date   := SYSDATE;
  p_person_rec.last_update_login := -1;
  p_person_rec.last_updated_by := 71690;
  p_person_rec.created_by      := 71690;
  INSERT INTO xx_person_details
  VALUES p_person_rec;
END xx_insert_person_prc;
/
```

How To Create A Dashboard Using An Oa Framework

**Barbara Matthews, John Stouffer, Karen
Brownfield**

How To Create A Dashboard Using An Oa Framework:

Developing E-Government Projects: Frameworks and Methodologies Mahmood, Zaigham,2013-06-30 The emergence of e government allows for effective governance increased transparency better management and efficient services through the use of the internet and information and communication technologies Therefore world governments are mobilizing large amounts of resources in order to implement and promote the use of e government Developing E Government Projects Frameworks and Methodologies presents frameworks and methodologies for strategies towards the design implementation and adoption of e government projects By providing best practices in the successful adoption of e government this book is essential for policy makers practitioners researchers and students interested in the approaches utilized for the successful implementation of e government projects

Installing, Upgrading and Maintaining Oracle E-Business Suite Applications Release 11. 5. 10+ (or, Teaching an Old Dog New Tricks - Release 11i Care and Feeding Barbara Matthews,John Stouffer,Karen Brownfield,2007 Installing Upgrading and Maintaining Oracle E Business Suite Applications Release 11 5 10 is OnCallDBA and Solution Beacon s latest collaboration Topics include Release 11i Concepts and Architecture Oracle10g Installing Release 11i Upgrading or Migrating to Release 11i Maintaining Release 11i Administering Release 11i Securing Release 11i Setting Up the Concurrent Manager Using the Concurrent Manager Release 11i Reporting and Tuning and Troubleshooting Co authored by Barbara Matthews John Stouffer Randy Giefer Karen Brownfield Jeff Holt James Morrow Bruno Coon Tim Sharpe and Faun deHenry this book covers Oracle10g and E Business Release 11 5 10

The Release 12 Primer - Shining a Light on the Release 12 World Barbara Matthews,John Stouffer,Karen Brownfield,2008-07-18 If you ve been thinking about installing or upgrading to Release 12 but need to understand more about why you should do so this is the book for you For functional users The Release 12 Primer highlights the modules that have changed the most Read about Oracle s Global Business Release Master Data Management MOAC and the Swan Interface Then see how it all comes together for the Financials and Procurement product families Supply Chain Management CRM and Projects And if you ve always wanted to understand more about the underlying technology but found all the terminology too complex to sort through this book covers the technical architecture security issues and even Fusion targeting both functional and technical readers The Release 12 Primer provides the real story on the latest version of the Oracle E Business Suite and its technical underpinnings If you only buy one book on Oracle E Business Release 12 buy this one Floyd M Teter Systems Engineer JPL

Building the Network of the Future John Donovan,Krish Prabhu,2017-06-26 From the Foreword This book lays out much of what we ve learned at AT all while managing one of the biggest networks in the world It is an amazing feat that will put AT T in a leading position for years to come Jim Zemlin Executive Director The Linux Foundation This book is based on the lessons learned from AT T s software transformation journey starting in 2012 when rampant traffic growth necessitated a change in network architecture and design Using new technologies such as NFV SDN Cloud and Big Data AT T s engineers

outlined and implemented a radical network transformation program that dramatically reduced capital and operating expenditures This book describes the transformation in substantial detail The subject matter is of great interest to telecom professionals worldwide as well as academic researchers looking to apply the latest techniques in computer science to solving telecom s big problems around scalability resilience and survivability

Digital Transformation for the Process Industries Osvaldo A. Bascur,2020-10-27 Imagine if your process manufacturing plants were running so well that your production safety environmental and profitability targets were being met so that your subject matter experts could focus on data driven business improvements Through proper use and analysis of your existing operations data your company can become an industry leader and reward your stakeholders Written in an engaging and easily understandable manner this book demonstrates a step by step process of how an organization can effectively utilize technology and make the necessary culture changes to achieve operational excellence You will see how several industry leading companies have used an effective real time data infrastructure for mission critical business use cases The book also addresses challenges involved such as effectively integrating operational OT data with business IT systems to enable a more proactive predictive management model for a fleet of process plants Some of the things you will take away Learn how a real time data infrastructure enables transformation of raw sensor data into contextualized information for operational insights and business process improvement Understand how reusing the same operational data for multiple use cases significantly impacts fleet management profitability and asset stewardship See how a simple digital unit template representing production flows can be repeatedly used to identify critical inefficiencies in plant operations Discover best practices of deploying real time situational awareness alerts and predictive analytics Realize how to transform your organization into a data driven culture for continuous sustainable improvement Find out how leading companies integrate operations data with business intelligence and predictive analytics tools in a corporate on premises or cloud enabled environment Learn how industry leading companies have imaginatively used a real time data infrastructure to improve yields reduce cycle times and slash operating costs This book is targeted for process industries production and operations leadership senior engineers IT management CIOs and service providers to those industries Academics will benefit from latest data analysis strategies This book guides readers to use the best results proven approaches to ensure operational excellence
