Biology of Cognitive Aging: Model Systems,

Technologies and beyond Shin Murakami,2017-04-13 Welcome We humans tend to experience forgetfulness when we get old The forgetfulness may become more serious memory impairment dementia Presumably we have known it for a long time but we still do not know the mechanism behind A normal part of forgetfulness is called age related memory impairment AMI which is considered the first step towards mild cognitive impairment MCI transition state and dementia disease state The majority of dementia is attributable to Alzheimer s disease AD Progression to dementia occurs at a high rate in patients with AMI This eBook covers exciting but yet challenging field of cognitive aging AMI is specific to neural tissues of the brain and is considered to be segmental aging It happens not only to humans but also to a variety of species Learning and memory are vulnerable to aging in a wide variety of model species including worms fruit flies insects snails fishes and rodents Aging specifically reduces the ability to learn new information but leaves old memories and procedural memory intact A comparative approach including the use of model systems seems to facilitate understanding of the molecular mechanisms that lead to AMI and AD We advocate research on model systems This eBook also provides the first manuscript co authored with an AD patient to create a feedback loop from patients incorporated into research We also included a manuscript on the semi automated system that was inspired by such a feedback Those may place a nice flavor to this exciting series of comparative research on cognitive aging We hope you enjoy this eBook Warm regards Shin Murakami Ph D

Evidence-Based Outreach/Service-Learning to Improve Health-Related Self-Efficacy through STEM

Education Jonathan J. Wisco,Carolina Restini,Peter J. Vollbrecht,Tracey Weiler,Kirsten A. Porter-Stransky,2025-10-13

Outreach and service learning to elementary and secondary schools and community organizations that serve under represented groups URG and under represented minority URM demographics has long been a focus of pre clinical and clinical health professions education institutions to improve individual and health related self efficacy When health pre professional and professional students teach correct science technology engineering math and medicine STEM principles

to youth they help to improve the health related self efficacy and cultural competency of individuals and the community
Service learning is an extension of outreach efforts defined broadly by different accreditation councils as educational
experiences in which students purposefully prepare and provide service to the community followed by a reflection on the
experience Together outreach and service learning are excellent opportunities for professional pathway students to inspire
the next generation of elementary and secondary school children to develop evidence based health related self efficacy and
an interest in STEMM careers *Mining Journal, Railway & Commercial Gazette* ,1908 **Family Herald** ,1883
