

Format

Lately, the issue of _____ has generated a lot of debate. Some people believe that using _____ gives more favorable outcomes, while others argue that it has more disadvantages. According to the argument, _____ is better supported because he/she/it provided substantial evidence to verify his/her/its claims, and his/her/its reasonable/credible sources of information convince the readers to believe him/her/it. _____ should/shouldn't be used because it gains/lacks/causes _____ and _____.

Firstly, _____'s argument is better supported because the writer includes scientific-based information to support/help the idea. (_____ said that _____ are better than _____ because they/it can do things _____ can not.)" For example, _____ mentions that " _____". Although _____ (opponent's name) said that _____, he/she/it did not have enough information. Therefore, _____'s point is more credible than the other position.

Secondly, _____'s argument is more reliable when he/she /it states that _____ discusses that _____. For this reason, he/she/it mentions that _____. However/On the other hand, the other party argues that _____. Hence/Thus, _____'s side/idea is more convincing than its counterpart.

Finally, _____'s argument is more convincing/logical because _____. To clarify/in other words, _____. Therefore, _____.

In conclusion, as the two sides considered, _____'s argument is more convincing/better supported; he/she/it has more vital/robust evidence than the opponent. It is better than other other processes, which are _____. (other evidences) All in all, the government should let the people use _____.

Examples

Bioethanol From Corn

Lately, the issue of corn ethanol has generated a lot of debate. Some people believe that using this ethanol gives more favorable outcomes, while others argue that it has more disadvantages. According to the argument, Miriam is better supported because she provided substantial evidence to verify her claims, and her reasonable sources of information convince the readers to believe her. Bioethanol from corn should be used because it helps reduce pollution, can be used as a low-priced alternative fuel, and can help farmers.

Firstly, Miriam's argument is better supported because the writer includes scientific-based information to support the idea. Miriam said that fuel ethanol is better than others. For example, Miriam mentions that "ethanol helps reduce pollution, which emits fewer greenhouse gas emissions." Although Kristin said that shipping and exporting corn ethanol is expensive because of its pipeline costs, he did not have enough information. Therefore, Miriam's point is more credible than the other position.
