

Imperialism: political, & social consequences

Imperial colonization has been occurring since the beginning of time. An imperialistic nation would increase its importance and power by winning an empire. Some takeovers were forced by political rivalries. European imperialism took place between 1875 and 1914. This was a time when European countries took over many parts of Africa and Asia.¹ Imperialism is the total domination of the political, economic or cultural aspects of a nation², its basic idea is that of imposing superiority and practicing dominance, through this imposing their authority on a weaker state. There are many views on this topic as to some are pro imperialism and how it changed the culture of the society for the better and then there are some who would argue that their culture was better before the intervention from the west. The term cultural imperialism hence refers to the dominance of the superimposing authorities' culture through political and economic powers on the native culture of the weaker state. . Imperialism advances a countries politics, society, and economic value into a powerful money making country. The following paper would talk about the political, social and economic consequences that imperialism had on many countries.

Marxist's Theory

To Marxists, "imperialism" is not simply the "trend towards expansion" or the "conquest of foreign lands," as it is defined by most political scientists and sociologists. The word is used in a much more precise sense to describe the general changes which occurred in the political, economic and social activity of the big bourgeoisie of the advanced capitalist countries,
