Him the most What does this book's title Can't See the Forest for the Trees imply A simple answer is The Forest is symbolic of God's Plan revealed in Bible scripture with all of its mystery to be understood and fulfilled with steadfast belief faith and trust in the power of the Holy Trinity God the Father Jesus Christ the Son and the Holy Spirit one for all all for one God's Plan is a work in progress nearing fulfillment The Trees are symbolic of obstacles like gullibility false teaching false prophecy false doctrine apostasy hate lying deceit evil love of money blind speculation and the like all of which are growing rampant in the United States The message reveals Spiritual Blindness as a curse that God has imposed upon His Church for their lack of true faith in Him not unlike the Israelites as they turn away from the New Covenant Law blindly accepting unsuspected guidance from Satan to employ worldly ways and promote apostasy By misguided faith some may be unprotected by the Armor of God and their failing to cultivate the Fruit of the Spirit makes matters worse The author is hopeful that his book will bring awareness of spiritual blindness to summon a repentant reaction for restoration of religious understanding and direction in line with God's real purpose

The Perception of Christianity as a Rational Religion in Singapore Clive S. Chin, 2017-03-23 This book evaluates the common criticism that Christianity in Asia is westernized Since the 1980s Asian evangelical theologians and missiologists argue that the intrusion of Western theology is responsible for the Western and hence alien expressions of Christianity in Asia Yet in Singapore the number of Christians has increased over the last few decades Empirical evidence demonstrates that younger Chinese Singaporeans convert from Buddhism or Taoism to Christianity partly because they perceive it as a rational religion over Buddhism or Taoism which are viewed as irrational or superstitious Not only do many converts favor Christianity as a rational religion but they do not regard Christianity as a Western religion at the point of their conversion What accounts for those recent developments This study explores the processes of modernization and globalization as important factors impacting religious change in Singapore Personal contextual and structural elements actually influence one's religion of choice In facilitating effective mission one must qualify the use of the categories Asian and Western because religious and cultural boundaries overlap What matters most in missiology is discerning how the gospel of Jesus Christ engages the self understanding and lived realities of ethnic and religious others in diverse cultural settings
