MAIN IDEA & DETAILS

Read the following paragraph . Determine the main idea and write the important details.

The Cinema came to India at the turn of this century. First, films had no sound. The Raj brought the Cinematography to India in 1896 and by 1901 we were making our own films. India at present produces the largest number of movies every year. 'Alam Ara' was the first Indian talkie released in 1931. One of the earliest documentaries shot "The Return of the Wrangler Parajpe", the celebration of a Maharashtrian who had secured a top degree in Mathematics at Cambridge. Then through the 20s and 30s to the 90s we have moved through social films, romance, entertainment, sex and violence. From small screen films we have progressed to 70 mm., 3D (Three dimensional and 'Surround sound' screen films. The films have great impact on the tastes and attitude of the masses. The cinema is the most popular means of entertainment in our country. The invent and popularity of Television have been affecting the film industry badly. But inspite of that cinema has not lost its importance.

Reading Empirical Research Studies John R. Hayes, Richard E. Young, Michele L. Matchett, Maggie McCaffrey, Cynthia Cochran, 2020-10-07 For the most part those who teach writing and administer writing programs do not conduct research on writing Perhaps more significantly they do not often read the research done by others because effective reading of articles on empirical research requires special knowledge and abilities By and large those responsible for maintaining and improving writing instruction cannot without further training access work that could help them carry out their responsibilities more effectively This book is designed as a text in graduate programs that offer instruction in rhetoric and composition Its primary educational purposes are to provide models and critical methods designed to improve the reading of scientific discourse to provide models of effective research designs and projects appropriate to those learning to do empirical research in rhetoric Aiming to cultivate new attitudes toward empirical research this volume encourages an appreciation of the rhetorical tradition that informs the production and critical reading of empirical studies The book should also reinforce a slowly growing realization in English studies that empirical methods are not inherently alien to the humanities rather that methods extend the power of humanist researchers trying to solve the problems of their discipline **Teaching Main Idea**
