

Business Requirements Document

Feature	Definition	Requirement Shopping
Standard based and interoperable messaging protocol	Messaging protocol must be based on industry standards to enable interoperability	
Send Only	Also called Push MEP is simple one-way messaging where a message is sent with no expectation response.	
Receive only	Also called Pull MEP is a message pattern where a non-addressable sender supports the ability to explicitly obtain messages from another application. This can be used for exchanges	
Request/Response exchange	Message pattern consists of one or more request/response pairs. The correlation between request and a response is well defined. In this response maybe deferred and the requesting application may or may not block application processing until a response is received	
Diagnostics	Authentication, diagnostic, logging & routing information should be included in the message and not the payload	
Reliability	Protocol capability to support assured and single delivery to the receiving application with no loss
