Advances in Mechanical Transmission: Innovations and Applications Shuxin Wang, Datong Qin, Fei Liu, 2026-02-04
This book compiles cutting edge research from the 2025 International Conference on Mechanical Transmission ICMT 2025 systematically exploring theoretical breakthroughs and industrial innovations in mechanical transmission The content spans new transmission theories and modeling methods e g digital twin driven lifecycle design smart materials composites polymers green manufacturing technologies and AI integrated optimization strategies for transmission systems The book focuses on addressing core challenges such as fatigue reliability NVH Noise Vibration and Harshness behavior and energy efficiency improvement while showcasing industrial applications of smart gears and bearings predictive maintenance algorithms and sustainable lubrication technologies The content uniquely integrates a precision green intelligent manufacturing paradigm offering interdisciplinary solutions For example it demonstrates closed loop optimization of transmission systems from design to testing via digital twin technology and enhances the reliability of industrial robots and wind turbines through AI driven fault diagnosis Bridging academia and industry this book supports the development of efficient low noise and low carbon next generation transmission systems for aerospace new energy vehicles marine equipment and beyond

Mechatronics And Manufacturing Technologies - Proceedings Of The International Conference (Mmt 2016) Poki Chen, 2017-06-02 Held in Wuhan of China from August 20 21 2016 the 2016 International Conference on Mechatronics and Manufacturing Technologies MMT2016 provides an excellent international academic forum for all the researchers and practitioners to share resources exchange opinions and inspire studying The conference enjoys a wide spread participation among all over the universities and research institutes It provides a broad overview of the latest research results on related fields and also a significant platform for academic connection and exchange MMT2016 proceedings collects together 96 articles after peer review to report on state of art developments of mechanical engineering based on originality significance and clarity for the purpose of the Conference [I Bytes Technology Industry](#)
