All chapters begin with a scenario appropriate to the content and contextual exercises are incorporated throughout the chapter. Student Skills chapters Chapters 1 and 25 equip students with skills for succeeding in the MA program and for finding a job after they complete their course of study. National curriculum competencies covered in each chapter are listed in the chapter opener to help students focus on what is required for certification and familiarize them with the official language of the curricula. Charting examples in all procedures cover proper documentation in the patient record to ensure accurate charting extremely important to communicating the proper information to a record user and legally protecting the practice. Critical Thinking Applications featured with a specific icon appear periodically throughout a chapter and relate to the chapter opening scenario challenging students to use specific concepts to make decisions about a real life situation. Applied learning approach features a scenario at the beginning of each chapter suited to that chapter's focus which is summarized at the chapter's end centering on a fictional MA who needs to make decisions and address critical issues to help students develop sound critical thinking and decision making skills. Many new chapter features including an all new interior design tighter focus new color palette and fresh icons enliven this edition and make information easy to follow. Increased emphasis on medical terminology features a vocabulary spelling and terminology review in the Student Study Guide and bolded words within the chapter to reinforce medical terminology in context.
