to your company's needs **Anything But Preventive** Bayani B. Banzuela, 2026-01-10 In a cold storage facility the preservation of perishable goods is of utmost importance. Imagine having perishable goods worth 100 million pesos stored in such a facility. The value of the goods alone underscores the criticality of maintaining an efficient maintenance program. Failure to properly maintain the equipment in a cold storage setting can result in significant losses as the integrity and quality of the stored products may be compromised. Therefore, it becomes imperative to ensure that the machines in the cold storage facility are in optimal condition to uphold the required freezing temperatures and humidity levels. More than maintenance, the book is also the story of technicians and facility personnel who managed the cold storage operation.
