Force Of Law English Edition:

Force Majeure and the Law: Acts of God in Comparative and Historical Perspective Thomas D.

Musgrave,2025-04-08 This book examines how the Roman French and English legal systems have each dealt with the issue of unforeseen supervening events which have rendered the performance of contractual obligations either impossible or fundamentally different in nature sometimes known as Force Majeure or Acts of God Although the Roman French and English laws of contract have each developed legal rules which address this issue the approach adopted by each system is significantly different from that of the others The thesis of this book is that the response of a legal system to unforeseen supervening events derives primarily from the nature and structure of that legal system as a whole and then within that broader context from the salient characteristics of that system s particular law of contract The work compares the differing nature and structure of the Roman French and English legal systems and their respective laws of contract in order to demonstrate how this is so The book will be a valuable guide for academics and researchers working in the areas of Comparative Law Legal History Legal Theory and Contract Law As the English approach to unforeseen supervening events is very different from that of the French the book will be of benefit both to English and to French practitioners as they seek to understand how supervening events are dealt with across the Channel It will also appeal to law students as a guide for studying comparative law

Uwakah, 1997 This book which relies on primary and secondary printed sources and a series of interviews with affected persons lawyers judges and customary court presidents in Nigeria focuses on the place of due process in the Nigerian legal system Uwakah is concerned about the abuse of this important fundamental right in his country The purpose of the book is to examine how due process operates in Nigeria and whether the coexistence of the customary law the English common law the Moslem law and the martial law systems in Nigeria hinders or enhances due process in the country Finally the study investigates the suitability of the British version of due process to Nigeria since the concept is imported to the country The book concludes that the British version of due process is unsuitable to Nigeria because the country's political economic social and religious backgrounds substantially differ from those of Britain This conclusion is premised on the consensus of the interviewees Uwakah recommends the country's immediate transition from military to civilian rule
