Do not be intimidated that you are not a "math person" or "science person". The following notes and resources are provided for you as a resource that you will need to be able to do a good job of your semester. Please review your notes, 100% and 200% for additional notes.

Please remember a passing grade is the minimum required for graduation as a graduate. There is still a lot of work and study required for a strong education. It is highly recommended that you study your work after class and do the assigned homework. Identify concepts you have trouble with that require additional practice.
