in step 5a of this procedure. The module ID # is provided on a sticker which can be affixed to the space provided in step 5a.

- Is this a new account or one being added to an existing account? Check box(es) in 5a.

This information is required for final verification/activation of the VSM200/250 or DSM200/250.

2. Installation Points:

- Install and test the security/remote start system first using the associated guides and wiring diagram. If using an existing system, verify it is fully functional before installing the Directed SmartStart module.
- For 3000-series Remote Start systems with no supplied remote control, test the installed system using the functional commands in the SmartStart activation portal.
- Mount the SmartStart module as high as possible in the vehicle (side with color label and model number facing down). Mount with minimal obstructions that can affect communications and within reach of the main Directed system using the provided cables (do not extend).
