More Brain-powered Science Thomas O'Brien, 2011 Author Thomas O'Brien uses 20 inquiry oriented discrepant events on explorations or demonstrations in which the outcomes are not what students expect to challenge students' preconceived ideas and urge them to critically examine the empirical evidence draw logical inferences and skeptically review their initial explanations with their peers It's the perfect dual purpose activity book for science teachers who aim to motivate their students while expanding their own scientific understanding Doing Science, 2005 A module to help students to understand the key concepts of the scientific method By experiencing the process of scientific inquiry students come to recognize the role of science in society The Builder, 1893 Green Chemistry in Practice Thomas McKeag, 2023-04-01 Green Chemistry in Practice Greener Material and Chemical Innovation Through Collaboration collects a unique set of case studies based on researchers' experiences in developing practical green chemistry driven solutions to industry problems as part of the Greener Solutions Program at the Berkeley Center for Green Chemistry Beginning with an introduction to green chemistry the book goes on to provide an overview of the interdisciplinary approach taken by the Center which aims to bring about a generational transformation toward the design and use of inherently safer chemicals and materials through research teaching and outreach This is followed by four detailed case studies revealing each step of the process involved in assessing and designing greener solutions to real world problems in the fields of preservatives textiles additive manufacturing and green energy Drawing together the hands on practical experience of an interdisciplinary team from across academia and industry Practice in Green Chemistry provides a unique insight into the practicalities of applying green chemistry principles in support of a global push toward a more sustainable world Green Chemistry in Practice Greener Material and Chemical Innovation Through Collaboration is also a valuable resource for both academia and industry students and researchers Reviews the foundational principles of green chemistry in the context of real world scenarios Highlights successes pitfalls and practical steps to take when working with a multifaceted interdisciplinary group Supports those involved in designing and implementing green solutions across a whole range of fields *Story Starters and Science Notebooking* Sandy Buczynski, Kristin Fontichiaro, 2009-05-19 Story Starters and Science Notebooking Developing Student Thinking Through Literacy and Inquiry is designed to provide a meaningful comfortable framework in which teachers and parents can encourage elementary children to explore scientific ideas in an inquiry oriented format The basis for each scientific concept presented in Story Starters and Science Notebooking is embedded in a story appropriate for elementary aged children The activity that follows each narrative encourages learners to observe compare gather data organize or classify and draw conclusions about the problem posed from the story Because current scientific knowledge and understanding guide scientific investigations background information in each chapter provides teachers with a synopsis of the scientific concept involved in the activity for that story The story starters present a framework for inquiry which

eliminates the free wheeling uncontrolled and unstructured view some teachers have of inquiry These are either original stories or familiar children s stories that ask learners to investigate a possible scientific explanation for a problem or scenario Learners then communicate their findings in an oral written pictorial or technological form back to a lead character from the story Extension activities provide an opportunity for learners to compare their answers with what scientists already know about the world and also motivate them to frame new questions Grades 3 6
