Ivins, Anne Pemberton, 2019-04-22 Selected as a 2025 Doody's Core Title Written by two librarians with extensive publication experience this book provides practical techniques and tools to prepare librarians to publish successfully This book is neither a research methodology nor a craft of writing book Instead its sole goal is to help librarians and other information science professionals start writing identify an outlet for publication and publish successfully It dispels the mythos surrounding scholarly writing by providing practical tools and advice to help soon to be authors get started on the publication journey now This book will guide aspiring authors step by step through the writing and publication process from nurturing an idea to fruition all the way to enjoying a successful publication Along the way readers will learn how to identify the best publication type and venue gather the needed information to make a convincing argument and skillfully manage even the most complex project Topics range from cerebral such as how to maintain motivation through a project to technical such as common grammar and vocabulary errors but all are designed to be practical and of immediate use to a writer Whether a graduate student at the beginning of your career in the field of information sciences a newly minted librarian fresh out of graduate school a library administrator at the peak of your career or somewhere in between publishing can keep you engaged in the issues facing the profession and enhance your career and professional success Readers will be inspired and ready to contribute to library scholarship and start building their own successful scholarly habit *The Laughing Guide to*

Well-Being Isaac Prilleltensky, 2016-04-14 Do you experience stress Are you interested in better health and well being Do you pursue happiness If you answered yes to any of these questions you need to read this book If you answered no you're in denial All of us can use a little help to become happier or healthier Unfortunately the help we get is often too scary if you don't do this or that some catastrophic event of epic proportions will happen Prilleltensky's approach in contrast is to help you become healthier and happier through laughter In this hilarious book Prilleltensky combines humor with science to help you

improve your well being Each chapter consists of the Laughing Side a series of funny stories and the Learning Side a research based user friendly guide to health and happiness The first chapter provides an overview of well being while subsequent chapters cover each of its six domains Interpersonal Community Occupational Physical Psychological and Economic I COPPE When you finish the book you ll have a greater understanding of your life and ways to make it better

The Discipline of Organizing: Informatics Edition Robert J. Glushko,2016-08-05 We organize things We organize information information about things and information about information Organizing is a fundamental issue in many professional fields but these fields have only limited agreement in how they approach problems of organizing and in what they seek as their solutions The Discipline of Organizing synthesizes insights from library science information science computer science cognitive science systems analysis business and other disciplines to create an Organizing System for understanding organizing This framework is robust and forward looking enabling effective sharing of insights and design patterns between disciplines that weren t possible before The 4th edition of this award winning and widely adopted text adds content to bridge between the foundations of organizing systems and the new statistical and computational techniques of data science because at its core data science is about how resources are described and organized The 4th edition reframes descriptive statistics as organizing techniques expands the treatment of classification to include computational methods and incorporates many new examples of data driven resource selection organization maintenance and personalization The Informatics edition contains all the new content related to data science but omits the discipline specific content about library science museums and document archives
