DEVONthink 4 offers a slew of features for defeating information overload but mastering its power is easier with real world advice from DEVONthink power user Joe Kissell. DEVONthink 4 is an incredibly powerful information management app that can function as anything from a simple snippet keeper and note taker through a massive database for a complex research project. All these features give you unprecedented control over your data. They also mean DEVONthink is a lot to wrap your head around. This book, created in partnership with DEVONtechnologies, helps you get started with DEVONthink by acquainting you with not only its interface and major features but also its philosophy. After covering essential DEVONthink vocabulary and concepts, Joe helps you start using DEVONthink effectively. You'll learn how to decide how many databases you need and set them up, determine whether to input or index data, import data from many different apps, import data from a scanner including OCR options, use grouping and tagging to organize data, add and work with DEVONthink 4's extensive metadata capabilities, use simple and sophisticated techniques for searching, create smart groups that automatically gather newly imported data, use smart rules and AppleScript or JavaScript to automate countless activities within DEVONthink, create documents in plain text, HTML, Markdown, and more, edit documents in DEVONthink or externally, find the best way to sync DEVONthink data with other devices, work with reminders, smart templates, and other sophisticated tools, convert documents between formats, chat with your documents using your favorite large language model (LLM), effectively use the DEVONthink To Go iPhone/iPad app, share DEVONthink documents with other people, export documents from DEVONthink, back up and maintain healthy databases.
