Waxler,2014-09-25 *The Risk of Reading* is a defense of the idea that deep and close readings of literature can help us to understand ourselves and the world around us It explores some of the meaning and implications of modern life through the deep reading of significant books Waxler argues that we need fiction to give our so called real life meaning and that reading narrative fiction remains crucial to the making of a humane and democratic society Beginning by exploring the implications of thinking about the importance of story in terms of real life *The Risk of Reading* focuses on the importance of human language especially language shaped into narrative and how that language is central to the human quest for identity Waxler argues that we are linguistic beings and that reading literary narrative is a significant way to enrich and preserve the

traditional sense of human identity and knowledge This is especially true in the midst of a culture which too often celebrates visual images spectacle electronic devices and celebrity Reading narrative in other words should be considered a counter cultural activity crucial on the quest to know thyself Reading literature is one of the best opportunities we have today to maintain a coherent human identity and remain self reflective individuals in a world that seems particularly chaotic and confusing Each chapter takes up a well known work of nineteenth or twentieth century literature in order to discuss more fully these issues exploring in particular the notion of life as a journey or quest and the crucial relationship between language and our contingent everyday existence Of particular interest along the way is the question of what literary narrative can teach us about our mortality and how stories offer opportunities to reflect on the ambivalent and profound meaning of mortal knowledge
