Worked Example 1: point charges (medium)

Electrostatic Potential

Conceptual: Following after learning every thing, determine what the electrostatics is.

Question 1: The first part of the diagram below represents a solid uniformly charged sphere with radius a and total charge Q . The right side is a long, thin wire, of the total length of the sphere. The distance to represent the wire's length is the same as the diameter of the sphere. The wire is placed so that it lies along the horizontal diameter of the sphere. The diagram below shows the sphere's electric field at points A and B with the electric field corresponding to the electric potential of the solid uniformly charged sphere. The electric field is shown at points A and B and the potential of the wire is shown. The electric field is shown at points A and B .

Question 2: Label the potential on the sphere's wire with the correct corresponding to the electric potential of the solid uniformly charged sphere. Note: the electric potential of the wire is different at
