new frontiers Export Manager Luca Gatto, Marco Sanfilippo, 2024-05-23T00:00:00+02:00 In the complexity of the current economic context exports represent the only path that allows Italian SMEs to grow and thrive in the medium to long term. However, the international markets in which they operate are increasingly complex and competitive and unlike local markets they are complicated by the presence of barriers and peculiarities related to sales and after sales management. In this scenario, the Export Manager is a crucial figure in enabling companies to initiate develop and manage the export of goods and services and more generally to activate the internationalization process. In this perspective, the book represents a true guidebook for a profession on the rise. From company assessment to market analysis from defining the entry strategy into target countries to designing the business model from risk assessment to business plan drafting and implementation to KPI monitoring for each activity, the authors pragmatically illustrate both the necessary technical skills and the softer managerial capabilities supported by cases and examples without neglecting the implications of the digitization process that now affects every phase of this multifaceted profession.
