*The Power of Teacher Teams* Vivian Troen, Katherine Boles, 2012 While most educators believe working in teams is valuable, not all team efforts lead to instructional improvement. Through richly detailed case studies, *The Power of Teacher Teams* demonstrates how schools can transform their teams into more effective learning communities that foster teacher leadership. The benefits of successful teacher teams include improved performance for both teachers and students, meaningful professional development, group adoption of a new curriculum, shared insights into student work, better classroom management, support for new teachers, new roles for teacher leaders, and opportunities for mentor support. School leaders will find guidelines, methods, and concrete steps for building and sustaining effective teacher teams. Also included is a DVD with video case studies and one CD with reproducibles. The most important reason for building teacher teams is to enhance student learning through improved instruction, and that story is at the heart of this book.

**Leading Standards-Based Education Reform** Linda R. Vogel, 2010-11-16 Standards-based education (SBE) has been the dominant educational reform movement since the early 1980s, reinforced by federal and state accountability systems. This book examines the efforts of educational leaders in implementing SBE to improve student achievement in a variety of demographic contexts, but with common challenges. Four stages of SBE implementation are identified that focus on strong district leadership, the articulation of how SBE can benefit students, an investment in collaborative structures and teacher training, and the facilitation of dialogue among all educational stakeholders. The descriptions of leadership actions and educator development at each stage can serve as a guide for educators and policy makers to assess which stage schools and districts are in and what steps can be taken to effectively move SBE reform efforts forward. The reflective questions for district school and teacher leaders at each stage can facilitate the dialogues that can ensure that SBE reform supports changes in classroom instruction that improve the learning opportunities and educational outcomes of all students.
