Photography and Photomacrography

Objectives

Information in this chapter will enable you to:

- Discuss the differences between close-up photography, photomacrography, and photomicrography
- Discuss the reasons why the terms close-up and macro differ from macrophotography and microphotography
- List and describe six different systems of close-up photography and photomacrography

Technical Terms

bellows
close-up lenses
close-up photography
extension tube
macrophotography
microphotography
photomacrography
photomicrography
ring flash

There are situations where an image is made of a very small object, insect, or flower for the purpose of enlarging the image. You may need to illustrate the color/texture of a surface or show the beautiful colors of the inside of a flower or capture the texture of the inside of an insect. See Figure 7-1. All of these tasks depend on your ability to photograph the subject in such a way that, when the image is enlarged, all of the important details are clear.
