**The Complacent Class** Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog Marginal Revolution is the first thing I read every morning And his brilliant new book The Complacent Class has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we re working harder than ever to avoid change We re moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We re more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

**Juncture Class 5 Term 3** Shalu Mehra, Alka Rati Bakshi, A Course Book **Growing Community Forests** Ryan Bullock, Gayle Broad, Lynn Palmer, M.A. (Peggy) Smith, 2017-10-13 Canada is experiencing an unparalleled crisis involving forests and communities across the country While municipalities policy makers and industry leaders acknowledge common challenges such as an overdependence on US markets rising energy costs and lack of diversification no common set of

solutions has been developed and implemented Ongoing and at times contentious public debate has revealed an appetite and need for a fundamental rethinking of the relationships that link our communities governments industrial partners and forests towards a more sustainable future The creation of community forests is one path that promises to build resilience in forest communities and ecosystems This model provides local control over common forest lands in order to activate resource development opportunities benefits and social responsibilities Implementing community forestry in practice has proven to be a complex task however there are no road maps or well developed and widely tested models for community forestry in Canada But in settings where community forests have taken hold there is a rich and growing body of experience to draw on The contributors to Growing Community Forests include leading researchers practitioners Indigenous representatives government representatives local advocates and students who are actively engaged in sharing experiences resources and tools of significance to forest resource communities policy makers and industry
