The Nursing Program, School of Community Health & Policy, Morgan State University

Dean School of Community Health and Policy, Dr. Kim Sydnor, Interim Director of the Nursing Program, Dr. Mamie Montague in absentia, faculty and staff of the school of community health and policy, graduating students, friends and family – Greetings!

I feel honored to speak here today at the nursing pinning ceremony of the Class of 2014. I will like to begin by saying congratulations to you, class of 2014! You deserve that round of applause. I know it has not been an easy journey because, as you might have suspected by now, I've been there! You have gone through a tedious academic and professional journey, one that can only be successfully completed through hard work, diligence and determination. The nursing curriculum is a very intense and elaborate curriculum. Yet, through thick and thin and throughout its joy and the challenges, you did it anyway! So I say good job, and congratulations!

Here we are today at your pinning. The nursing pinning is a solemn occasion dated as far back as the 12<sup>th</sup> century when the Knight Hospitallers were honored with a Maltese pin for caring for injured soldiers; back to 1860 when Florence Nightingale was honored with the Red Cross pin for the great nursing work she did in the war in Crimea; and back to 1890 when a class of nurses at the Bellevue Hospital School of Nursing in New York were the first to be pinned on graduation. So, class of 2014, this is your time. It is an occasion to honor you also for the successful completion of the first and major part of your education as professional nurses. This ceremony is a rite of passage to symbolize where you went, and to declare with you, your readiness and passage into the world to care for humanity in a professional manner. Every time you wear the pin, you remember the faculty, the staff and your colleagues of the Morgan State University nursing program that were part of your journey and your professional life story. The pin reminds you that, from now on, your mission is three-in-one - to care, to advocate and to lead. In other words, you are now a care provider to your patients, an advocate for your clients, and a leader in any setting you might find yourself.

Now that you have scaled one big hurdle, you would be looking forward to taking your Board exams and making progress in your professional career. My prayer and prediction for you are that you will pass your Board exams soon and you will make great progress in life. In the meantime, I would like to share a few thoughts with you as you move on from here. My thoughts for you today are centered on your three-in-one mission of caring, advocating and leading.

There is no doubt that Morgan State University has imparted in you a broad range of the art and science of caring through its intense nursing curriculum. And, because of the broad nursing knowledge, proficient caring skills and professional caring attitude that you have acquired through this school, your patients and their families are the better for it. The country and the world are the better for it. So, now, you should go into the world as nurses who truly care. Not as those who are in it solely for the money, but as those whose sense of caring is saturated with genuine love, selflessness and compassion.

Roberts, 2001-10-03 Nursing Physician Control and the Medical Monopoly Historical Perspectives on Gendered Inequality in Roles Rights and Range of Practice Thetis M Group and Joan I Roberts A history of physicians efforts to dominate the healthcare system Nursing Physician Control and the Medical Monopoly traces the efforts by physicians over time to achieve a monopoly in healthcare often by subordinating nurses their only genuine competitors Attempts by nurses to reform many aspects of healthcare have been repeatedly opposed by physicians whose primary interest has been to achieve total control of the healthcare system often to the detriment of patients health and safety Thetis M Group and Joan I Roberts first review the activities of early women healers and nurses and examine nurse physician relations from the early 1900s on The sexist domination of nursing by medicine was neither haphazard nor accidental but a structured and institutionalized phenomenon Efforts by nurses to achieve greater autonomy were often blocked by hospital administrators and organized medicine The consolidation of the medical monopoly during the 1920s and 1930s along with the waning of feminism led to the concretization of stereotyped gender roles in nursing and medicine The growing unease in nurse physician relations escalated from the 1940s to the 1960s the growth and complexity of the healthcare industry expanding scientific knowledge and increasing specialization by physicians all created heavy demands on nurses Conflict between organized medicine and nursing entered a public open phase in the late 1960s and 1970s when medicine unilaterally created the physician s assistant countered by nursing s development of the advanced nurse practitioner But gender stereotypes remained central to nurse physician relations in the 1980s and into the 1990s Finally Group and Roberts examine the results of the medical monopoly from the impact on patients health and safety to the development of HMOs and the current overpriced poorly coordinated and fragmented healthcare system Thetis M Group is Professor Emerita at Syracuse University where she was Dean of the College of Nursing for 10 years and an adjunct faculty member at the University of Utah College of Nursing She is co author of *Feminism and Nursing* and has published numerous articles in professional nursing journals Joan I Roberts social psychologist is Professor Emerita at Syracuse University A pioneer in women s studies in higher education she is co author of *Feminism and Nursing* and author of numerous books and
