individuals that never went to college or had a trade skill so there weren't a lot of job choices for me. What was I to do? I started looking into entry level jobs that didn't require specialized training or skills. Unfortunately, I wasn't keen on the idea of working at a fast food restaurant for minimum wage with limited potential for advancement or better pay. Then I learned about house cleaning from a friend of mine. She used house cleaning as a way to supplement their family income. However, I realized the potential to grow this into something more. So I started taking on a few residential cleaning jobs, getting my name out there and increasing my client list. I took the time to do some research and found a way to offer some specialized services that got me paid a little extra. Before I knew it, my client list was growing beyond what I could do by myself. So I started hiring employees. Then I realized the importance of branching out and started to take on commercial contracts. Commercial cleaning turned out to be even more beneficial to my income than residential cleaning. Not only was I able to support myself with this work, but I was able to grow and thrive. Today I have a company of my own with 22 employees. We take on both residential and commercial cleaning contracts. My income has grown to over 250,000 a year now. I never dreamed a simple job to help pay the bills would grow into this, but it has. It takes a little bit of work, but the benefits are there to be had if you know what to do. I'm here to tell you what you need to do so you can have success just like I did.
