

2250, 2350 and 2450 Mount-O-Matic loaders

Use hydraulic power to mount or dismount in less than five minutes

All International Mount-O-Matic loaders feature extra-quick mounting and dismounting with your tractor's hydraulic power doing the hard work. Once the front and side brackets are bolted permanently to your tractor, you can quickly and easily attach the loader. The sequence of pictures on the right shows you how easily it is done. You can free your tractor for other work just as easily, and the loader subframe serves as a parking stand.

Because the entire loader and its mounting brackets are located forward on the tractor, it can be mounted on cab equipped tractors. Operation is convenient because your tractor's regular hydraulic system and controls are used.

Bucket choices include 60 and 72-inch manure forks and 65 and 84-inch material buckets plus an 8-foot wide dry material bucket for the 2350 and 2450 models. A wide variety of utility type attachments is also available.

1. Drive tractor into position behind freestanding loader. Stop and connect hydraulic hoses.

2. Subframe, which has served as a parking stand, is raised hydraulically as you drive into loader.

3. Use tractor hydraulics to "power" loader fully onto the tractor as you slowly pull into position.

4. Insert two retaining pins, one on each side, to lock loader to front mounting brackets.
