The Extraordinary Chambers in the Courts of Cambodia Simon M. Meisenberg, Ignaz Stegmiller, 2016-03-30 This book is the first comprehensive study on the work and functioning of the Extraordinary Chambers in the Courts of Cambodia (ECCC). The ECCC were established in 2006 to bring to trial senior leaders and those most responsible for serious crimes committed under the notorious Khmer Rouge regime. Established by domestic law following an agreement in 2003 between the Kingdom of Cambodia and the UN, the ECCC's hybrid features provide a unique approach of accountability for mass atrocities. The book entails an analysis of the work and jurisprudence of the ECCC providing a detailed assessment of their legacies and contribution to international criminal law. The collection containing 20 chapters from leading scholars and practitioners with inside knowledge of the ECCC discuss the most pressing topics and its implications for international criminal law. These include the establishment of the ECCC, subject matter crimes, joint criminal enterprise and procedural aspects including questions regarding the trying of frail accused persons and the admission of torture statements into evidence. Simon M. Meisenberg is an Attorney at Law in Germany; formerly he was a Legal Advisor to the ECCC and a Senior Legal Officer at the Special Court for Sierra Leone. Ignaz Stegmiller is Coordinator for the International Programs of the Faculty of Law at the Franz von Liszt Institute for International and Comparative Law, Giessen, Germany.

The SAGE Handbook of Social Media Research Methods Anabel Quan-Haase, Luke Sloan, 2022-09-02 The SAGE Handbook of Social Media Research Methods spans the entire research process from data collection to analysis and interpretation. This second edition has been comprehensively updated and expanded from 39 to 49 chapters. In addition to a new section of chapters focussing on ethics, privacy and the politics of social media data, the new edition provides broader coverage of topics such as Data sources, Scraping and spidering data, Locative data, video data and linked data, Platform specific analysis, Analytical tools, Critical social media analysis. Written by leading scholars from across the globe, the chapters provide a mix of theoretical and applied assessments of topics and include a range of new case studies and data sets that exemplify the methodological approaches. This Handbook is an essential resource for any researcher or postgraduate student embarking on a social media research project.

Promoting Accountability under International Law for Gross Human Rights Violations in Africa Charles Chernor Jalloh, Alhagi B.M. Marong, 2015-07-14 Promoting Accountability under International Law for Gross Human Rights Violations in Africa is pre-eminently a study on the work and contribution of the first international judicial mechanism, the International Criminal Tribunal for Rwanda (ICTR), devoted exclusively to challenging impunity for serious international crimes committed in Africa. This volume is dedicated to the eminent international jurist

Justice Hassan Bubacar Jallow the Tribunal's longest serving Chief Prosecutor and the first prosecutor of the United Nations Mechanism for International Criminal Tribunals. The noted scholar and practitioner contributors discuss various aspects of the law, jurisprudence and practice of the Tribunal over its twenty year existence while also drawing lessons for current and future international courts such as the International Criminal Court. Themes covered include the role of the international prosecutor, the prosecution of sexual and gender based crimes, the relationship between national and international courts, the role of other international institutions in challenging impunity and the role of African languages in international criminal trials. Given its wide ranging substantive coverage, this book will be invaluable to anyone interested in criminal justice, human rights and humanitarian law, whether in Africa or other parts of the world.

The Routledge Handbook of Financial Literacy Gianni Nicolini, Brenda J. Cude, 2021-12-30. Financial literacy and financial education are not new topics even though interest in these topics among policymakers, financial authorities and academics continues to grow. The Routledge Handbook of Financial Literacy provides a comprehensive reference work that addresses both research perspectives and practical applications to financial education. This is the first volume to summarize the milestones of research in financial literacy from multiple perspectives to offer an overview. The book is organized into six parts. The first three parts provide a conceptual framework which discusses what financial literacy is, how it should be measured and explains why it represents a relevant topic and effective tool in enhancing decision making among consumers as well as consumer protection strategies. Part IV addresses the connection between financial education and financial literacy with chapters about financial education in school settings as well as for adults. This part includes an analysis of the role of Fintech and the use of gamification in financial education. Part V is a collection of contributions that analyze financial literacy and financial education around the world with a focus on geographical areas including the U.S., South America, Western Europe, Eastern Europe, Asia and Africa. This part also considers how financial literacy should be addressed in the case of Islamic finance. The concluding part of the book examines how financial literacy is related to other possible approaches to consumer finance and consumer protection, addressing the relationships between financial literacy and behavioral economics, financial well being and financial inclusion. This volume is an indispensable reference for scholars who are new to the topic, including undergraduate and graduate students and for experienced researchers who wish to enrich their knowledge, policymakers seeking a broader understanding and an international perspective and practitioners who seek knowledge of best practices as well as innovative approaches.
