

Writing a Literary Analysis Paper

The Purpose of a Literary Analysis:

A literary analysis is not merely a summary of a literary work. Instead, it is an argument about the work that expresses a writer's personal perspective, interpretation, judgment, or critical evaluation of the work. This is accomplished by examining the literary devices, word choices, or writing structures the author uses within the work. The purpose of a literary analysis is to demonstrate why the author used specific ideas, word choices, or writing structures to convey his or her message.

How to Create a Literary Analysis:

1. **Read the text closely several times.** Focus on the ideas that are being presented. Think about the characters' development and the author's writing technique. What might be considered interesting, unusual, or important?
2. **Brainstorm a list of potential topics.** Highlight important passages in the text and take notes on these passages. Later, when writing the paper, these notes should help a writer to remember which aspects of the story caught his/her attention. The topic chosen should always be based on a writer's interpretation of the author's message. Here are some things a writer may want to consider when brainstorming for a literary analysis.
 - ❖ **Character:** What observations might a writer make about the characters? Are there discrepancies in what they think, say, or do? Are the observations a writer makes different from what other characters say? How does the author describe the characters? Are the characters "dynamic" (a dynamic character is a character that undergoes important changes throughout the work)? Are the characters "static" characters (a static character is a character that stays the same throughout the work)? Are the characters "flat" characters (a flat character is a character that does not have vivid character traits) or "round" characters (a round character is a character that has vivid character traits)? Are the characters symbolic or representative of some universal quality? Is it possible that two characters in the text might be compared or contrasted?
 - ❖ **Setting:** Is there a relationship between the work's setting and its mood? Does the setting reflect the work's theme? How does the setting impact the characters? Does a change in the setting affect the mood, characters, or conflict?
 - ❖ **Plot:** How might the beginning of the work be interpreted? How does the plot build suspense? Does the author use techniques such as foreshadowing or flashback? Are there patterns of cause-effect relationships? Do events occur in a logical order? Examine the events that lead to the climax and determine how the work ends?

Political and Historical Topics in Selected Plays by Brian Friel: A Teaching Perspective David

Cichowicz, 2012-08-29 Examination Thesis from the year 2002 in the subject English Language and Literature Studies Literature grade 2 3 University of Wuppertal language English abstract Brian Friel is considered one of the most successful contemporary Irish dramatists His works have achieved international reputation and are staged throughout the world Even in schools especially in Ireland his plays are dealt with For language and literature teachers who work with Friel s plays in school this paper shall serve as a kind of handbook It is divided into two parts The first is a theoretical analysis of Friel s plays Philadelphia here I come Translations and Making History It provides the basic theoretical knowledge about the plays that teachers need for professional teaching The analysis examines Friel s plays on political and historical topics The plays mentioned all show many similarities concerning these topics and therefore seem very suitable for a detailed literary analysis The second part of this paper is more practically orientated It provides classroom teaching ideas for Friel s plays including many exercises and teaching material Although a lot has been written on Friel only a few have looked at his work from a didactical point of view A journal article by Philip Brady The Scholar in the Hayfield Brian Friel and the Post Colonial Classroom 1998 reports about the staging experiences of Translations by a university teacher for Irish literature Brady mentions the international validity of the political topics in Translations that can be applied to many countries and cultures Unfortunately the article does not provide teaching ideas and materials A few teaching materials can be taken from the internet see II 5 p 52 but not much has been done here either This seems to be surprising because the German syllabus as well the Irish syllabus both state that in order to live in this world one needs knowledge about historical political social and economical coherences cf Richtlinien 1999 p XIV Language is embedded in history culture society and ultimately personal subjectivity English Syllabus Higher Level 1999 p 2 The selected plays match the demand of both syllabi because they mainly deal with historical and political topics and illustrate how they affect a whole culture and its individuals These circumstances show the necessity of a work such as this and it may prove to be something that fills an important gap in Friel studies
