

Gasland

Discussion Guide

Release Year: 2010

Run Time: 90 min.

MPAA Rating: PG-13

Viewing this movie with students may bring the following issues:

Key Summary

Gasland is a documentary film that explores the fracking industry, a controversial oil and gas extraction process. The film shows how fracking has led to a surge in natural gas production in the United States, but also highlights the environmental and health concerns associated with the process. The film features interviews with industry experts, environmentalists, and local residents who have experienced the effects of fracking. The film is a powerful and thought-provoking work that raises important questions about the future of energy and the environment.

This documentary is a key film for students to watch as they learn about the fracking industry and the environmental and health concerns associated with it. The film is a powerful and thought-provoking work that raises important questions about the future of energy and the environment. The film is a key film for students to watch as they learn about the fracking industry and the environmental and health concerns associated with it.
