

# 5th Grade Graduation Speech

Good afternoon to everyone, and thank you for coming to Piney Branch Elementary's 5<sup>th</sup> grade graduation. This event marks the transition of these wonderful children onto the next step of their journey: Who knows if the future president of the United States is standing on this stage at this moment? Maybe you're watching the one to cure cancer, or invent the newest technological innovation smiling up here right now!

We, the faculty and staff at Piney Branch, have very mixed feelings about this event. On one hand, we are absolutely delighted to see these children smiling at you all, ready to face the future. On the other hand, we are sad to see them go. Many of us have known these children since their pre-kindergarten program days – that's seven years! We hope that you will all achieve great things, because we know you can. After all, some of you have spent seven years in our halls. We just ask that you never forget that you came from Piney Branch Elementary, and that you come by and visit us sometime when you're successful and loving your life. This is a home for you all, so please don't forget to keep us informed of the wonderful places you go to next!

This ceremony will recognize each child for their achievements. Many of them have scored consistently well on standardized testing, making this class one of the highest achieving in the entire state. Please give yourselves a round of applause. Children, please look at your parents and give them a round of applause to thank them for being here today and supporting you. We are truly very pleased and happy at your progress in elementary school, and on behalf of the faculty and staff of Piney Branch Elementary, I wish you all the best in your future endeavors.

**Developing Inviting Schools** William W. Purkey, John M. Novak, Joan R. Fretz, 2020 Use this resource to create, sustain, and enhance the social and emotional climate of your school. Two of the creators of the Inviting Schools movement present a simple but not simplistic framework that offers real-life responses to such challenges as faculty morale, school safety, conflict management, community involvement, student behavior, motivation, and school success. Reaching Higher Rhona S. Weinstein, 2009-07-01 Drawing upon a generation of research on self-fulfilling prophecies in education, Weinstein argues that our expectations of children are often too low. She shows that children typed early as not very smart can go on to accomplish far more than is expected of them by an educational system with too narrow a definition of ability. *Case Studies on Safety, Bullying, and Social Media in Schools* Laura Trujillo-Jenks, Kenneth Jenks, 2015-09-16 *Case Studies on Safety, Bullying, and Social Media in Schools* addresses the most topical issues facing school leaders today, including bullying, harassment, inappropriate use of social media, drug use, and school safety. Bridging theory and practice, each chapter includes a detailed case artifact for analysis, explanation of relevant case and federal law, and guiding questions for discussion. Adapted from real-world examples, the case studies in this timely resource serve as essential exercises for aspiring and practicing leaders to ensure student safety and success. This case book helps aspiring educational leaders prepare and respond to even the most difficult situations that occur on school campuses and in the school community. **Underserved Patrons in University Libraries** Julia C. Skinner, Melissa Gross, 2021-01-12 This practical and research-based volume focuses on how libraries can meet the needs of underserved patrons in college and university libraries, with an emphasis on those facing trauma, abuse, and discrimination. While university libraries strive to meet the needs of all students, some groups have traditionally been overlooked. This volume engages with those underserved populations on college campuses, with an emphasis on those facing trauma, abuse, and discrimination. It brings a variety of authorial voices to discuss different aspects of that service and to share current research related to underserved populations in libraries. This combination supports research in LIS and beyond while offering concrete ways for service providers to make a difference in the lives of their patrons. Editors Skinner and Gross have both conducted extensive research in ethically meeting patron needs. They and their contributors are keenly aware of the complex and interwoven considerations that inform such service, such as patron desire for confidentiality accompanied by an urgent need for assistance. This volume is committed to sharing diverse voices in the field and to exploring the interrelationship between theoretical findings and practical applications, all in the service of underserved patrons.
