The Inner Life of Animals Peter Wohlleben, 2017-11-07 From the New York Times bestselling author of *The Hidden Life of Trees* *The Inner Life of Animals* will rock your world This book shows us that animals think feel and know in much the same way as we do Sy Montgomery bestselling author of *The Soul of an Octopus* Through vivid stories of devoted pigs two timing magpies and scheming roosters *The Inner Life of Animals* weaves the latest scientific research into how animals interact with the world with Peter Wohlleben's personal experiences in forests and fields We learn that horses feel shame deer grieve and goats discipline their kids Ravens call their friends by name rats regret bad choices and butterflies choose the very best places for their children to grow up In this captivating book Peter Wohlleben follows the hugely successful *The Hidden Life of Trees* with insightful stories into the emotions feelings and intelligence of animals around us Animals are different from us in ways that amaze us and they are also much closer to us than we ever would have thought Wry avuncular careful and kind Each story adds to a widening vision of intelligence emotion and relationship *The Guardian* Published in Partnership with the David Suzuki Institute

Animal Ethos Lesley A. Sharp, 2018-11-06 What kinds of moral challenges arise from encounters between species in laboratory science *Animal Ethos* draws on ethnographic engagement with academic labs in which experimental research involving nonhuman species provokes difficult questions involving life and death scientific progress and other competing quandaries Whereas much has been written on core bioethical values that inform regulated behavior in labs Lesley A Sharp reveals the importance of attending to lab personnel's quotidian and unscripted responses to animals *Animal Ethos* exposes the rich yet poorly understood moral dimensions of daily lab life where serendipitous creative and unorthodox responses are evidence of concerted efforts by researchers animal technicians veterinarians and animal activists to transform animal laboratories into moral scientific worlds

**Artificial Intelligence and the Future of Human Relations** Yanto Chandra, Ruiping Fan, 2025-09-26 This book stimulates new conversations around the ethical and policy considerations stemming from the influence of artificial intelligence AI on human relationships within a cross cultural perspective With chapters from distinguished scholars from Eastern and Western backgrounds it delves into the fundamental aspects of human connections and good governance examining them through the perspectives of both Eastern and Western values while addressing the implications of AI While the recognition of AI's substantial challenges to human values and effective governance is widespread there exists a notable lack of focus on its impact on the essential human relationships that embody these values and encompass human identity within Eastern and Western traditions By centering attention on this aspect the book highlights a critical concern for the development of AI that is suitable for the future of human relationships and good governance Specifically the book seeks to examine the influence of AI on essential human relationships such as those between parent and child spouses the elderly and the young physician and patient as well as relations between friends citizens and nations It is an essential resource relevant to academics in philosophy applied ethics
