Chapters highlight how firms **Muslim Fashion** Reina Lewis, 2015-10-15 In the shops of London s Oxford Street girls wear patterned scarves over their hair as they cluster around makeup counters Alongside them hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers Participating in the world of popular mainstream fashion often thought to be the domain of the West these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion In treating hijab and other forms of modest clothing as fashion Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity Muslim Fashion contextualizes modest wardrobe styling within Islamic and global consumer cultures interviewing key players including designers bloggers shoppers store clerks and shop owners Focusing on Britain North America and Turkey Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion identity and ethnicity *The Road to Unfreedom* Timothy Snyder, 2019-04-09 NEW YORK TIMES

BESTSELLER From the author of *On Tyranny* comes a stunning new chronicle of the rise of authoritarianism from Russia to Europe and America A brilliant analysis of our time Karl Ove Knausgaard *The New Yorker* With the end of the Cold War the victory of liberal democracy seemed final Observers declared the end of history confident in a peaceful globalized future This faith was misplaced Authoritarianism returned to Russia as Vladimir Putin found fascist ideas that could be used to justify rule by the wealthy In the 2010s it has spread from east to west aided by Russian warfare in Ukraine and cyberwar in Europe and the United States Russia found allies among nationalists oligarchs and radicals everywhere and its drive to dissolve Western institutions states and values found resonance within the West itself The rise of populism the British vote against the EU and the election of Donald Trump were all Russian goals but their achievement reveals the vulnerability of Western societies In this forceful and unsparing work of contemporary history based on vast research as well as personal reporting Snyder goes beyond the headlines to expose the true nature of the threat to democracy and law To understand the challenge is to see and perhaps renew the fundamental political virtues offered by tradition and demanded by the future By revealing the stark choices before us between equality or oligarchy individuality or totality truth and falsehood Snyder restores our understanding of the basis of our way of life offering a way forward in a time of terrible uncertainty [Connections](#) Jean Hillier, Jonathan Metzger, 2017-05-15 The professional practice as well as the academic discipline of planning has been fundamentally re invented all over the world in recent decades In this astonishing transition the thinking and scholarship of Patsy Healey appears as a constantly recurring influence and inspiration around the globe The purpose of this book is to

present discuss and celebrate Healey's seminal contributions to the development of the theory and practice of spatial planning. The volume contains a selection of 13 less readily available but nevertheless key texts by Healey which have been selected to represent the trajectory of Patsy's work across the several decades of her research career. 12 original chapters by a wide range of invited contributors take the ideas in the reprinted papers as points of departure for their own work tracing out their continuing relevance for contemporary and future directions in planning scholarship. In doing so these chapters tease out the themes and interests in Healey's work which are still highly relevant to the planning project. The title *Connections* symbolises relationality possibly the most outstanding element linking Patsy's ideas. The book showcases the wide international influence of Patsy's work and celebrates the whole trajectory of work to show how many of her ideas on for instance the role of theory in planning processes of change networking as a mode of governance how ideas spread and ways of thinking planning democratically were ahead of their time and are still of importance.

The Uneven Offshore World Justin Robertson, Michael Tyrala, 2022-03-24. Informed by world systems analysis this book examines the shifting patterns of accommodation and resistance to the offshore world with a particular focus on Mauritius as a critical but underappreciated offshore node mediating foreign investment into India and Africa. Drawing on a large pool of financial data and elite interviews the authors present the first detailed comparative study of the Mauritius-India and Mauritius-Africa offshore relationships. These relationships serve as indicative test cases of the contemporary global tax reform agenda and its promise to rein in offshore finance. Whereas India's economic power and multilateral track record have enabled it to actively shape this agenda and implement it in a robust manner most African countries have found themselves either unable to meet its stringent criteria or unwilling to do so out of fear that it might discourage investment. Its impact on offshore financial centers has likewise been limited. A few of the least sophisticated ones appear to have fallen by the wayside but the rest have either remained largely unaffected or like Mauritius succeeded in consolidating their operations and surviving the current round of regulatory headwinds. The findings suggest that the contemporary global tax reform agenda has thus far not only failed to make good on its promise but also actually reinforced numerous existing power hierarchies. *The Uneven Offshore World* is written in an accessible style and aimed at readers without specialized knowledge of tax issues.

Supporting Civics Education with Student Activism Pablo A. Muriel, Alan J. Singer, 2020-10-01. This book empowers teachers to support student activists. The authors examine arguments for promoting student activism, explore state and national curriculum standards, suggest activist projects and report examples of student individual and group activism. By offering suggestions for engaging students as activists across the K-12 curriculum and by including the stories of student activists who became lifetime activists, the book demonstrates how activism can serve to bolster democracy and be a component of rich experiential learning. Including interviews with student and teacher activists, this volume highlights issues such as racial and immigrant justice, anti-gun violence and climate change.
