Brief

I am a junior employee at a small software development Company and have been selected to take part in making judgement/s about an upcoming tournament at a local college. Another criteria in the spec enables me to make sure that there are no more than 5 members per team. To satisfy this demand, I have created only 5 (as a maximum) boxes in which the user can write down the names of those students participating. Another box is also made for only 1 specific individual who would like to carry out the tournament by themselves. Furthermore the specification additionally required that there should be a differentiation between Team Events and Individual Events, which again both can be easily accessible through the main home menu. Moreover, there is another asked necessity, that the Teams and Individuals should be ranked in score numbers, 1 being the highest, depending on the position that has been scored. To fulfil this, on the user interface of the Events Screen, I have given the user a possibility of entering the team or individual that has won in order. I have made use of
