Term	Definition	Example
Appeal to Ignorance	Uses lack of evidence as the basis of the argument. If something can't be disproven, then it must be true.	"No one who used my homemade shampoo has ever had an allergic reaction, so it must be hypoallergenic".
Hasty Generalization	when a conclusion is drawn from a sample that is too small or selective to assume with any confidence that it represents the subject accurately.	Charmaine is from Jamaica and has locs. Everyone from Jamaica has locs.
Post Hoc Ergo Propter Hoc	Assuming that because B follows A, A must have caused B. Some things just happen due to coincidence and the two things really having nothing to do with each other.	Carly tells Sam she doesn't like his cologne. The next day Sam doesn't pick Carly for a work promotion. This was not because of her remark about his cologne, it was because Carly has been late to work everyday the past month.
Either/Or	An either/or fallacy does not acknowledge that opposing claims could both be true, that grey areas may exist between the two alternatives, or that other possibilities exist.	Broccoli or carrots are the best healthy options to give your children. (What about other options like Kale, fruit, spinach, etc)?
Composition	Putting two or more "good" things together does not necessarily mean they will be good together. This fallacy looks at something from two perspectives: as a whole, and made up of parts. The argument is if something is true about the parts, then it is true about the whole.	Andy, Tiffani, Leah, and Carlos are the best fashion designers in my state. I will hire all 4 off them to design my wedding dress together. -This doesn't mean the dress will come out beautiful, because the designers will have their own creative view of how they want to style it).
Extravagant Hypothesis	Formulating a complex or	Conspiracy theorists claiming that
