1 Remove all protective materials from the product.

2 Connect the power cord to the back of the product and to an electrical outlet.

2 Press the ⏻ power button to turn on the product.

Notice: Do not connect your product to your computer yet.

3 Launch the app and follow the instructions to set up your product.

For information on setting up the fax, connecting to an external telephone device, or sharing your product on a network, using voice-activated printing, or storing preferences for frequently used faxing, Epson scanning, and print settings, see the sections on the back of this sheet.

3 Fill ink tanks

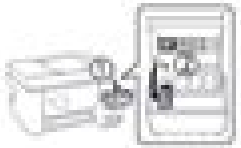
Warning: Keep the ink bottles out of the reach of children and do not drink the ink.

Caution: This product requires careful handling of ink. If ink spills, wipe it off immediately with a damp towel. To avoid permanent stains from getting on your clothes or belongings, it may not come off.

Notes:

- Epson cannot guarantee the quality or reliability of third-party ink.
- Use the ink bottles included with the printer to set up the product. Part of the ink will be used to charge the print head. These bottles will print fewer pages compared with subsequent ink bottles.
- Epson strongly recommends the use of genuine ink to ensure optimal print quality and performance.

1 Open the ink tank cover. Then open the cap for the black (BK) ink tank.



Note: Refer to the color-coded labels above the ink tank unit to identify the color of each tank.

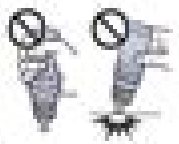
2 Unpack the black (BK) ink bottle. Hold the ink bottle upright and slowly turn the bottle cap to remove it.

Caution: Do not shake or squeeze the ink bottle. Do not touch the top of the ink bottle after its cap is removed.

3 Insert the ink bottle into the filling port.

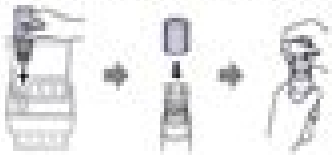
Note: Do not force the bottle into position each bottle is keyed for correct color.

4 Hold for the ink to fill the tank. Do not squeeze the bottle or allow it to contact any other surface.



Note: Ink flows into the tank and stops automatically when the ink tank is filled to the upper line. If ink does not flow from the bottle, firmly reinsert the bottle.

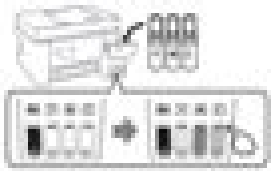
5 When the ink tank is full, remove the ink bottle and securely close it with the bottle cap. Keep ink bottles in the bottle, close the bottle and store it for later use.



Note: Do not store the ink bottle inverted, otherwise the ink bottle may be damaged or ink may leak.

6 Securely close the black ink tank cap.

7 Repeat the previous steps for the other ink tank.



8 Close the ink tank cover.

9 Press the control panel, then press the ⏻ power button to turn on the product. The ⏻ power light flashes.

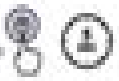
Notice: If an error code appears, turn off the product and check that no protective material has been left inside the product.

10 Select your language, country, date, and time settings.

Notice: You can change these settings later using the product's control panel. For more information, see the online User's Guide.

11 When an Epson Event Manager setup message appears on the LCD screen, select the option to continue setup.

12 When the message to load the 20x17 plain sheet appears on the LCD screen, press one of the ⧈ copy buttons for 5 seconds.



13 Press the ⏻ short button to start ink charging. Ink charging takes about 11 minutes.

Notice: When the ⏻ green light stops flashing, ink charging is complete. Close the back cap of the printer to avoid dust. You can turn off the ink tanks with any remaining ink. See the online User's Guide for instructions.

Caution: Do not unplug or turn off the product or open the front cover while the product is charging or you'll waste ink.

Notice: After some ink is used for charging, the tank is available for printing.

14 Press the OK button to proceed with initial setup.

15 Follow the on-screen instructions to adjust the print quality of your product.

Notes:

- You need to load paper before you can adjust the print quality. See "Load paper" on the back of this sheet.
- Select Adjust Later if you want to adjust the print quality later. For more information, see the online User's Guide.

Caution: After setup, periodically inspect the ink levels to ensure they do not fall below the ▼ lower lines on the tanks. If ink gets used up while you're below the lower line, you could damage the product. See the online User's Guide for refilling instructions.
