Introduction to Hydro Energy Systems Hermann-Josef Wagner,Jyotirmay Mathur,2011-06-26 The authors have tried to strike a balance between a short book chapter and a very detailed book for subject experts There are three prime reasons behind for doing so first the field is quite interdisciplinary and requires simplified presentation for a person from non parent discipline The second reason for this short version of a full book is that both the authors have seen students and technically oriented people who were searching for this type of book on hydro energy The third reason and motivation was considering engineers who are starting their career in hydro energy sector This book is targeted to present a good starting background and basic understanding for such professionals
