Classroom Assessment Peter W. Airasian, 2001 Airasian presents complex concepts clearly so that pre-service teachers can understand them and solidly grounds these concepts in best practice through practical, real-world, integrated examples. He talks to, not at, users. The text conceives of classroom assessment in a broader way than many other texts. It focuses not only on the assessment needs of testing, grading, interpreting standardized tests, and performance assessments but also on assessment concerns in organizing a classroom at the start of school, planning and implementing instruction, and strategies of teacher self-reflection. It views classroom assessment as an everyday, ongoing, integral part of teaching, not something that is separated from life in classrooms. The text is organized in a manner that follows the natural progression of teacher decision-making: from organizing the class as a learning community to planning and conducting instruction to the formal evaluation of learning and finally to grading. **Selected Water Resources Abstracts**, 1989 Secondary Education Journal, 1982
