Sub: My Years Underground in America's Schools Tom Gallagher, 2015-02-09 As a substitute teacher in the schools of San Francisco and South San Francisco since some time in the last millennium and in Boston before that Tom Gallagher sees kids on their worst behavior five days a week that is when business is good Once a member of the Massachusetts House of Representatives where he was affectionately known as Tommy the Commie and sat on the Joint Committee on Education Gallagher currently holds the line against academic entropy in everything from pre Kindergarten through 12th Grade from Physics to Phys Ed The fundamental stance of *Sub My Years Underground in America's Schools* is why it dares raise questions like why the guy who invented middle schools was never prosecuted for crimes against humanity At the same time Gallagher finds much of the current national debate on education misplaced the system works just fine for some while for others schools are asked to solve problems in children's lives that are far beyond their scope Back cover

Critical Investigations Into Interns' Urban Teaching Apprenticeship Experiences John Lockhart, 2009 *Crimmigration under International Protection* Rottem Rosenberg-Rubins, 2023-03-23 By exploring crimmigration at its intersection with international refugee law this book exposes crimmigration as a system focused on the governance of territorially present migrants which internalizes the impracticability of removal and replaces expulsion with domestic policing The convergence of criminal law and immigration law known as crimmigration has become perhaps the paradigmatic model for governing migration in the age of globalization This book offers a unique way of understanding crimmigration as a system of governmentality the primary target of which is the population its principal form of knowledge being political economy and its essential mechanism being the apparatus of security It does so by characterizing a particular model of crimmigration termed crimmigration under international protection which targets refugees and asylum seekers who are principally undeportable under international law The book draws on comparative research of such models implemented worldwide combined with a detailed case study of the immigration detention system instigated in Israel for coping with asylum seekers specifically and exclusively These models demonstrate that at its core crimmigration is not a system of outright social exclusion focused on the expulsion of undesirable migrants but rather one focused on the management classification and policing of domestic populations It is argued that under crimmigration regimes criminal law becomes instrumental in the facilitation of gradual assimilation by shifting immigration enforcement from the margins of the state to the daily supervision of territorially present migrants The book illustrates this point by focusing on three main themes crimmigration as domestication crimmigration as civic stratification and crimmigration as a mechanism coined by Foucault as the apparatus of security and by Deleuze as the society of control By exploring these themes the book offers a comprehensive framework for understanding the rise of crimmigration and the particular ways in which it targets resident migrants The book will be of interest to researchers and academics working in the areas of criminal law and criminology immigration law citizenship studies globalization studies
