Ports that come in handy in the Hyperion ecosystem

Ports are very important in the use of any application, especially the complex systems such as the EPM System. For example, if you had to type in the URL to access a Workspace, you are typing in the Port as well apart from the Server where the Workspace resides. The concept of Port is even more important if you are doing an EPM installation/configuration. Because we use several different Ports during EPM deployment, knowledge about what Port the different products in the EPM family use becomes very handy.

I have provided the following information regarding the Ports in accordance to system 11.1.2.1. Even though it may hold true to other versions as well, please do refer to manuals as per the version you are using for accuracy.
