Folie Aller Simple:

Reimagining Resistance in Gisèle Pineau's Works Lisa Connell, Delphine Gras, 2022-10-20 As one of the most prominent voices from and about the French Caribbean Gisèle Pineau has garnered significant scholarly attention however this interest has culminated in precious few volumes devoted entirely to the author and her work In response to this lack of in depth critical attention Reimagining Resistance in Gisèle Pineau's Works brings together a range of perspectives from both sides of the Atlantic and across the Pacific to explore the unique ways in which Gisèle Pineau's works redefine the concept of resistance particularly as it relates to gender race history and Antillean identity As this volume ultimately demonstrates resistance holds up a mirror to the political economic and cultural forces that have shaped the past construct the present and build the future It argues that Pineau's characters open the narrative frame for reading them and move us beyond the categories of the wholly defiant or the inherently complicit Above all as they invite us to reimagine resistance they expose our expectations and hopefully shift our understanding about what it means to rise and to fall in a world we seek to call our own

Decolonial Care Jennifer Boum Make, 2025-07-15 Decolonial Care examines the relationship between the legacies of colonialism and the dynamics of caregiving that have emerged from the French Caribbean Through a variety of media including novels graphic narratives and curatorial discourse this book explores four key contexts at the intersection of care and colonialism care focused gender roles domestic service nurturing human life and environments and curation as caring Decolonial Care argues that to imagine caregiving in the context of the French Caribbean means reckoning with intrinsically uncaring practices inherited from colonial rule that show disregard for human life and environments Putting in dialogue postcolonial studies and care studies this book elucidates how caring and uncaring have been historically shaped by colonialism showing how media and narratives about the French Caribbean document the damaging impact of colonialism but also help develop decolonial approaches to care that sustain human life and livable environments
