Locating Social Justice in Higher Education Research Jan McArthur, Paul Ashwin, 2020-03-19 This book focuses on the relations between social justice and higher education research Jan McArthur and Paul Ashwin bring together chapters from international researchers that explore these relations in a range of national contexts and consider their implications for policies pedagogy and our understanding of the roles of graduates in societies As a whole the book argues that social justice needs to be more than a topic of higher education research and must also be part of the way that research is undertaken Social justice must be located in research practices as well as in the issues that are researched *Violent student protests at Higher Education Institutions in South Africa* Nomzamo Dube, Olusegun Morakinyo, 2026-01-19 This book offers a multidisciplinary examination of violent student protests in South African universities tracing their roots to the nation's longstanding protest traditions shaped by apartheid resistance While situated within the field of higher education its chapters draw on perspectives from politics history communication and youth mobilisation Central to the volume is the complex balance between students' right to protest and the risks posed by violence intimidation and gangsterism Collectively the contributions advocate for reimagining student activism through democratic and constructive forms of engagement that strengthen rather than destabilise the academic project *Musical Bows of Southern Africa* Sazi Dlamini, 2020-12-10 *Musical Bows of Southern Africa* brings together current scholarly research that documents a rich regional diversity as well as cultural relationships in bow music knowledge and contemporary practices The book is framed as a critical appraisal of traditional ethnomusicological studies of the region complementing pioneering studies and charting contexts for a contemporary engagement with bow music as an exchangeable cultural practice Each contribution is written by an expert in the field and collectively demonstrates the multidisciplinary potential of bow music highlighting the several fields of knowledge that intersect with bow music including ethno organology applied ethnomusicology composition music literacy social development cultural economics history orality performance and language *Proceedings of the International Conference on Education Research* Reza Hosseini, **Proceedings of the 20th European Conference on Management, Leadership and Governance** Mafalda Patuleia, 2024 *Nationalism, Politics and Anthropology* Ilana van Wyk, Jimmy Pieterse, 2022-02-28 In this book Ilana van Wyk and Jimmy Pieterse interrogate the question of political subjectivity and its role in the making of anthropology and anthropologists by revisiting the pitched battles between so-called liberal social anthropologists and conservative nationalist volkekundiges in South Africa They pay particular attention to the social and cultural lives of two men who were central proponents of South African anthropology's two tales Kees van der Waal a former volkekundige and John Sharp once one of volkekunde's fiercest critics Through a series of conversations with Kees and John they show that the issues that once divided a local field still animate the ways in which centres and peripheries of global anthropology relate to one another and to foundational questions about the discipline's epistemology and political
