Film and Philosophy, 2007 **Welcome to the Family** Barry Hertz, 2025-11-25 An exclusive look inside the surprising history and contentious future of Hollywood's most unlikely blockbuster the Fast Furious franchise a series that uncannily anticipated the shifting currents of pop culture while changing the business of global entertainment at the same time What do Miami drug traffickers bloodthirsty Yakuza warriors Corona soaked backyard BBQs Dame Helen Mirren and a duct taped 1984 Pontiac Fiero turned rocket fueled spaceship have in common They are all essential elements of the ever expanding logic and laws of physics defying Fast Furious universe the most entertaining outlandish and secretly genius Hollywood creation that everyone has taken for granted until now Through an escalating series of high risk maneuvers from synapse stretching stunts to timeline bending narratives to explosive PR wars between the biggest baddest baldest egos in showbiz the Fast family and it is a family above all else has redefined the art and commerce of popcorn moviemaking And the gang did it all while staring down the kind of monumental soul rattling challenges the death of a star the upheaval of an industry that would have crushed the speed and spirit of any other filmmaking team An unauthorized journey into the makings of a cinematic saga unlike any other Welcome to the Family exposes the stranger than fan fiction journey of the franchise from the ground up Through rigorous behind the scenes reporting and incisive cultural commentary writer Barry Hertz's ride or die epic details every single twist and turn of Fast Furious drama a quarter mile at a time By the end you will believe a car can fly

Hollywood Science S. Perkowitz, Sidney Perkowitz, 2007 In this book a scientist and dedicated film enthusiast discusses the portrayal of science in more than one hundred films including science fiction scientific biographies and documentaries Beginning with early films like Voyage to the Moon and Metropolis and concluding with more recent offerings like The Matrix War of the Worlds A Beautiful Mind and An Inconvenient Truth Sidney Perkowitz questions how much faith we can put into Hollywood's depiction of scientists and their work how accurately these films capture scientific fact and theory whether cataclysms like our collision with a comet can actually happen and to what extent these films influence public opinion about science and the future Bringing together history scientific theory and humorous observation Hollywood Science features dozens of film stills and a list of the all time best and worst science fiction movies

Editing the Soul Everett Hamner, 2017-10-02 Personal genome testing gene editing for life threatening diseases synthetic life once the stuff of science fiction twentieth and twenty first century advancements blur the lines between scientific narrative and scientific fact This examination of bioengineering in popular and literary culture shows that the influence of science on science fiction is more reciprocal than we might expect Looking closely at the work of Margaret Atwood Richard Powers and other authors as well as at film comics and serial television such as Orphan Black Everett Hamner shows how the genome age is transforming both the most commercial and the most sophisticated stories we tell about the core of human personhood As sublime technologies garner public awareness beyond the genre fiction shelves they inspire new literary categories like

slipstream and shape new definitions of the human the animal the natural and the artificial In turn what we learn of bioengineering via popular and literary culture prepares the way for its official adoption or restriction and for additional representations By imagining the connections between emergent gene testing and editing capacities and long standing conversations about freedom and determinism these stories help build a cultural zeitgeist with a sharper more balanced vision of predisposed agency A compelling exploration of the interrelationships among science popular culture and self Editing the Soul sheds vital light on what the genome age means to us and what s to come Living with Cyberspace John Armitage,Joanne Roberts,2003-02-01 Cyberspace and cybertechnology have impacted on every aspect of our lives Western society culture politics and economics are now all intricately bound with cyberspace Living With Cyberspace brings together the leading cyber theorists of North America Britain and Australia to map the present and the future of cyberspace Presenting a guidebook to our new world both the theory and the practice the book covers subjects as diverse as androids biotech electronic commerce the acceleration of everyday life access to information the alliance between the military and the entertainment industries feminism democratic practice and human consciousness itself Together the essays divided into separately introduced sections on society culture politics and economics present a systematic and state of the art overview of technology and society in the 21st Century Contributors John Armitage Verena Andermatt Conley James Der Derian William H Dutton Phil Graham Tim Jordan Wan Ying Ling David Lyon Ian Miles Joanne Roberts Saskia Sassen Cathryn Vasseleu McKenzie Wark Frank Webster **The Human Genome Project in College Curriculum** Aine Donovan,Ronald Michael Green,2008 Begun formally in 1990 the U S Human Genome Project s HGP goals were to identify all the 20 000 to 25 000 genes in human DNA determine the sequences of the three billion chemical base pairs that make up human DNA store this information in databases improve tools for data analysis and transfer related technologies to the private sector It was the first large scientific undertaking to address potential issues that arose from project data and opened up vast possibilities for the use of genetic data and the alteration of our genetic makeup This volume is the first to address the diverse range of ethical issues arising from the HGP and enables professors to bring this critically important topic to life in the classroom

Roger Ebert's Movie Yearbook, 1999 Roger Ebert,1998 Presents detailed descriptions and reviews of virtually every movie that has opened nationally over the past year reports from the major film festivals interviews with important movie figures and essays on the movie world Tech-Noir Paul Meehan,2008-05-12 This critical study traces the common origins of film noir and science fiction films identifying the many instances in which the two have merged to form a distinctive subgenre known as Tech Noir From the German Expressionist cinema of the late 1920s to the present day cyberpunk movement the book examines more than 100 films in which the common noir elements of crime mystery surrealism and human perversity intersect with the high technology of science fiction The author also details the hybrid subgenre s considerable influences on contemporary music fashion and culture **Film Review** ,1999 **Twisted** Jessica Zafra,1999
