**Introduction to Astronomy** Ronald J. Bieniek,1984      **Physics** Physical Science Study Committee,1960      **Ending the War Between Humanity and Nature** Patrick C. Lee,2020-08-19 This book offers plausible explanations for people's puzzling unwillingness to address the human nature interactions that have led us to the precipice that is climate change today. Humanity and nature are at war; the evidence is all around us: catastrophic weather events, rising sea levels, extinction of species, famine, wildfires, melting polar ice, millions of environmental refugees, and toxic pollution of air, water, and soil. The list goes on and on. What is causing this war, and how can it be stopped? Is this war an unintended consequence of economic and environmental imperatives pulling in opposite directions? This book takes the question and its answer to a deeper level. It argues that the root cause of our war on nature might be found in the time-honored, historically deep myths, narratives, and stories we tell ourselves and have been telling ourselves for centuries about humanity's place in or out of the natural world.

P.S.S.C. Physics Physical Science Study Committee,1961      **SCM Studyguide: Philosophy and the Christian Faith** Ben Pugh ,2018-12-04 The challenges that Western culture keeps posing to the Christian faith are ever new. The goal posts keep changing. This study guide will equip theology students to understand the culture-shaping beliefs that are driving the kinds of questions it brings to faith. It will be an historical overview of the key stages in the history of Western philosophy, with each section carefully tracing the genealogical line of ideas and the Christian responses to them right up to the present day. For most theology students, learning abstract philosophical concepts involves literally learning a new language—a language that the initiated converse in with ease but which leaves the uninitiated baffled. Thus each chapter in this study guide opens with a glossary of terms. Throughout the studyguide, students are encouraged to reflect on the ways in which what has been learned might be applied in both explicitly theological and wider cultural contexts; for example, they might be asked to think of a film or book that seems to express elements of existentialism or postmodernism or to describe how something very like the extreme subjectivity of idealism can sometimes show itself in Sunday morning worship.
